

Ethernet card setup

Aim

To insert the 1 Gb Ethernet card into your computer and to configure it to work with MediaRecorder.

Prerequisites

- You have IP or GigE cameras.
- You have an Intel PRO/1000 GT or Intel Pro/ 1000 PT Ethernet card.
- You purchased the computer with MediaRecorder yourself, or you bought the cameras after you received the computer.

If you bought a complete system from Noldus IT, the card has been installed and set up. You can skip this topic.

Procedure

Carry out the following steps:

1. [Install the Ethernet card](#)
2. [Set Ethernet card IP address](#)
