

Show or hide recording properties

Aim

To show or hide the table under the preview of the camera images, so that the space for the preview images is increased.

Procedure

Click **Recording properties**.

The screenshot shows a video recording interface with four camera views in a 2x2 grid. Below the views is a 'Recording properties' panel, which is highlighted with an orange box. The panel contains a table with recording settings, file location, file base name, and output mode options.

Nr	Use	Video name	Audio name	Mute	Volume
1	<input checked="" type="checkbox"/>	Video 1	Audio 1		
2	<input checked="" type="checkbox"/>	Video 2	Audio 2		
3	<input checked="" type="checkbox"/>	Video 3	Audio 3		
4	<input checked="" type="checkbox"/>	Video 4	Audio 4		

File location: C:\Users\Public\Documents\Noldus\Media; ...

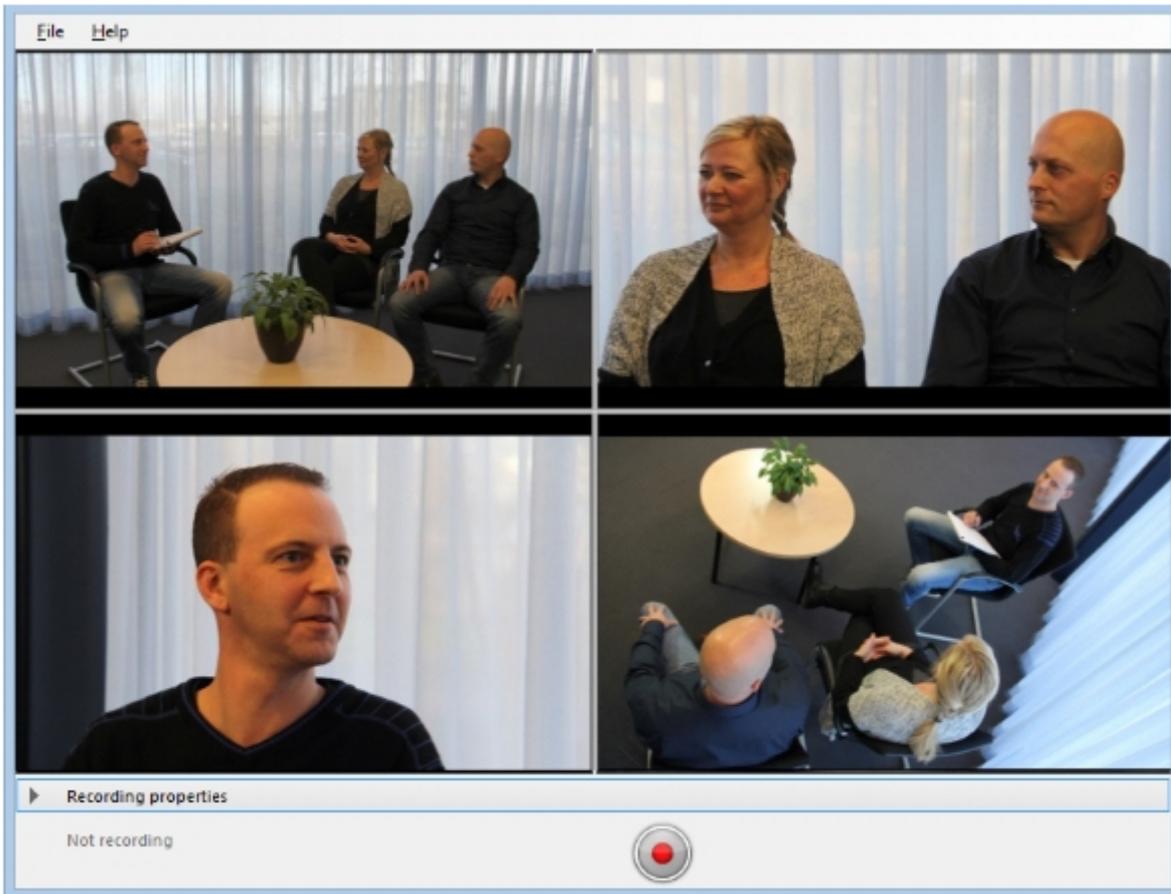

File base name: Video

Output mode: 1 2
3 4

Not recording

Result

The size of preview images is increased.
