- [Select a video device](#)
- [Select an audio device](#)
- [Video file options](#)
- [Record your videos](#)

## TIPS

- To use the Help at its best, set Internet Explorer, FireFox, Google Chrome or a similar browser, not Microsoft Edge, as the default browser.
- If you keep getting the message “Internet Explorer restricted this webpage...”, do the following: in Internet Explorer, choose Tools > Internet Options > Advanced. Under Security, select Allow active content to run in files on My Computer. Click OK, then close and restart the Help.

- If you do not see the Table of Contents on the left, enlarge the Help window or zoom out ( Ctrl+mouse wheel, or Ctrl+-).
- To search for two or more adjacent words, use quotation marks, for example “Action Unit”.

- To go back to the search results after visiting one of the result pages, click again on the magnifying glass icon in the Search field.
