

Locations and Sessions

By default, a session is a recording with all cameras in one location. To create sessions, your user role must allow session recording.

Main topics

- [Pan, Tilt, and Zoom](#) (PTZ) the cameras. This is only possible if the camera has Pan, Tilt, and Zoom control.
- [Save PTZ presets](#)
- Change the [Video layout](#)
- [Change Audio source and volume in preview](#)
- Use [Talk to people in location](#) to talk to the persons in the location.
- [Specify a default session name](#)
- [Create and edit groups](#) to view the session.
